

# Argonautics Newsletter

- Continue to receive positive feedback on newsletters from within Argo community
- Publishing on ~yearly basis
- Want to keep content interesting – include articles in addition to the usual set including meeting summaries, float technology progress, etc.
- Need to evaluate if we should publish one this summer

# Possible Articles

- Feature the education and outreach presentations given at AST-14 (SEREAD by Julie Hall, PI-GOOS by Phil Wiles, Engaging Students by Carol Briesman, South Africa by Tammy Morris, BGC by Herve Claustre)
- Millionth Profile celebration (based on latest Argo Brochure, IOC/UNESCO press releases)
- Summaries of AST-14, ASW-4 (P-Y LeTraon), AMDT-13 (S. Pouliquen or A. Thresher)
- Deep float developments in US, France (will ask Serge LeReste) and Japan (?)
- Any other float technology updates: MRV systems, etc.
- Introduce Argo thesis citation list
- Other ideas?
